RAG Intelligence Overview

RAG Product Intelligence Dashboard

This dashboard surfaces insights from the UC3 Product Intelligence RAG system. The RAG pipeline converts 1,774 product records into natural language documents, embeds them locally using `all-MiniLM-L6-v2`, and answers merchandising questions by retrieving the most relevant documents and grounding the LLM response in them.

Page 1 — RAG query history, vendor performance, and slow-moving inventory analytics.

Page 2 — Genie Space for SQL-backed natural language analytics.
